*Dancers enrolled in Corps de Ballet Classes will learn choreography for our winter production of Nutcracker, as well as our spring ballet.

***Dancers may progress to pointe once they have passed their PointeSafe tests as approved by a PointeSafe Certified BLS Instructor. Some additional evaluations may be required.

If dancers accept the ballet track they are placed in, they are required to enroll in all of the listed classes for that track. Strongly suggested classes, privates, and performance participation will assist dancers in furthering their technique at an accelerated rate but are not required. Dancers are permitted to accept the requirements of a lower placement track.

Dancers who are not interested in pursuing pointe training should reach out to the office for class placement.
